Early Literacy Tip
 Children can learn to recognize the shape and sounds of the 26 letters of the alphabet with ABC books. Preschool children can also learn about story creation—the knowledge that stories come from ideas created in the mind first.

TRACK YOUR PROGRESS BOOK BY BOOK

Color in one circle each time you read a book together. If you read the same book 100 times, it counts as 100 books! Once every circle is filled, stop by the library to pick up a reward and a new reading log.
